Congratulations on a *well-organized and interesting* magazine which I consider quite *sustainable*. Good luck in your future editions as we need more traditional well written hard copy.

I just got my H&G and *it sure looks good*. As I settled into my bourbon over ice tonight I began to flip the pages of your very nice magazine.

*Chad Martin, Designer Dungan-Nequette*

I told Lucy it would be great if she could sell 7 pieces a month. Ever since the article came out, she's just blown up. She has 18 orders this month. *That article has given her the validation she needed to break into markets* in Charlotte and Atlanta.

Thank you for all the beautiful editorials this year. We are most grateful for you and the associates you are surrounded with. *We are esteemed for allowing us to be a part of your business and production.*

*Philip Flores, River Bottom Pine*

Just wanted to let you know I got a Birmingham Home & Garden today and *it is wonderful! I think you are doing an amazing job*. You have transformed that magazine!! I am so proud of you!!

*Mark Kennamer, Interior Designer*

*I can't begin to tell you how happy Mark and I are with the article.* Bravo to you and your research and accuracy on our home. Mark is especially pleased. He was so concerned that he might come off as pretentious. *You are amazing, gentle, and sensitive!*

I wanted to drop you an email and say how much I enjoyed your Historic Homes 2010 issue. I have become a little *unhappy with Southern Living* because there is not much substance to their articles and the photos, while pretty, often don't give me a real sense of what a room or home is like. Not so with your Historic Homes issue. Lots of nice big photos where I can look at the molding detail used in the rooms (I am a woodworker). *I plan to put this issue away with other magazines that inspire me to further improve my home.*

I read my new BH&G issue last night, and you did such a great job on it. It looks incredible. I am sure you know this, but *one of your gifts is you are able to include so many people and businesses in every issue*, which indirectly sells your magazine. I would love to know your subscription/advertising numbers, as if they have not grown significantly this past year, I guarantee they are going to take off. I hope you realize how far your reach is. I've gotten calls from clients in Anniston and Montgomery

*People really read your magazine.* You wouldn't believe how many people have called me about seeing my house in it. Even my husband's friends have noticed.

I just wanted to let you know how much I enjoyed this month's issue of Birmingham Home & Garden magazine. Of course, *I loved the fabulous article* Shades of Light featuring Paul and Jeremy's architectural and Interior design work on the home in Tuscaloosa. I was so happy to see the article on the house in Tuscaloosa, which is a great example of their talent. It deserves to be seen by so many people. *You have done a great job with your talent, vision and leadership skills* to take the magazine to the next level. I enjoyed reading all of the articles in this issue. Congratulations to you and your team!

Teresa Morrow, reader

Loved meeting you today. *You made me feel so fabulous about my house.* Renovating it was one of the most fun things I've done in a long while and it was special partly because we knew this was the house for us for a long time.
